

## HANDGUNS | GUNS & GEAR | By J. SCOTT RUPP

### > WINCHESTER BONDED PDX1

We reviewed this hot new defensive ammo when it first came out last year (type “a bonding experience” into the search engine at our website to read the review). Now Winchester is offering this great round in the hot caliber *du jour*, .380 ACP (95 grains), as well an old favorite, the .45 Colt (225 grains).

### < ATN JAVELIN 600

American Technologies Network's new Javelin J600 provides 600 lumens of LED illumination and is constructed of heavy-duty 6061-T6 aluminum, making it strong enough to be used as a glass breaker or for self-defense. Also available in a weapon-mounted version (J600W).

### V PENDLETON SAFES

A novel approach to security and storage, Pendleton safes rotate for easy access to your firearms, and it's available with optional handgun shelving. The round configuration will help it fit just about anywhere in your place, and more than 300 LED lights make it easy to find things. All-steel with tamper-free bolts and a specially designed ball-bearing striker plate that prevents thieves from drilling out the lock.

### > GALCO M4X ALH

ALH stands for Auto Locking Holster, and the M4X ALH for Glock pistols features a proprietary locking device that holds the pistol until you press on the holster's thumb release. The injection-molded thermoplastic holster has undergone thousands of draws in tests. The M4X ALH uses the same paddle as the M5X and fits belts up to 1¾ inches.

### V BLACKHAWK ERGONOMIC DUTY HARNESS

As officers are required to carry more and more gear, all that weight can cause discomfort and even injury. Blackhawk has developed a new harness that fits under the duty shirt and with a little modification attaches to the duty belt. Available in two sizes, it fits a wide range of body and armor types.
