### AMBUSH CONCEALMENT JACKET

Bullet 50 presents its new concealed carry jacket, the Ambush. The Ambush jacket is a true operator jacket that conceals handguns with ease and allows for quick deployment. The Ambush is a mid-weight jacket with a weather-resistant nylon shell. The jacket has two large ambidextrous interior concealment pockets that will hold small- to full-size handguns. The Ambush has large YKK zipper closures, two side zippers that allow you to access and deploy handguns from your belt, adjustable wrist snaps, and two interior fighting straps that hook to your belt. The fighting straps keep the jacket in place if involved in a fight and assist with weight management when carrying handguns. The jacket has a large document pocket in the rear, and stealth patches in the armpit area minimize jacket noise. Suggested retail is \$259.95. For more information, contact Bullet 50 HQ, Dept. S.W.A.T., 3377 Deer Valley Rd #164, Antioch, CA 94531, (925) 776-7578, [www.bullet50.com](http://www.bullet50.com).

## NEW PRODUCTS AND ACCESSORIES GEAR LOCKER

### MAGNUM ELITE SPIDER CREEPS INTO STORES

Magnum's re-entry into the SWAT and tactical markets, the Magnum Elite Spider, is now available to end-users. The highly anticipated Magnum Elite Spider is positioned to rival all competitors in the rankings as the lightest weight, most breathable and athletic tactical boot on the market. The first two boots in the series, Elite Spider 5.0 (a mid-cut boot) and Elite Spider 8.0 (a high-cut boot), are now available at select retail partners. Elite Spider can also be purchased directly from Magnum Boots online. Raising the bar in the lightweight category, Magnum Elite Spider is 20% lighter than any other boot in its category (15.2 oz. for Elite Spider 5.0).

Elite Spider's lightweight construction suits SWAT operational missions by keeping officers light and agile on their feet. The boot's upper is constructed

of combination fully polishable full-grain leather, lightweight action leather and highly breathable aero mesh. In place of a heavy steel shank, a non-metallic Stabilaflex lasting board ensures lightweight support underfoot. Suggested retail is \$90-110. For more information, contact Magnum Boots, Dept. S.W.A.T., 4801 Stoddard Road, Modesto, CA 95356, (800) 521-1698, [www.magnumboots.com](http://www.magnumboots.com).

### WILEY X COMBAT ASSAULT AND TACTICAL ASSAULT GLOVES

Wiley X, Inc., a leader in the development of the highest intensity personal protective gear for military and law enforcement professionals for more than two decades, announces that the company's Combat Assault Glove (CAG-1™) and Tactical Assault Glove (TAG-1™) are two of the first products added to the

### ATN GEN3 NIGHT VISION RIFLESCOPES

American Technologies Network Corp. (ATN) proudly introduces the ATN MARS series of night vision weapon sights, the MARS 4X-3P and the MARS 6X-3P. Both feature a new ATN proprietary feature: a two-color manual brightness of the aiming reticle. This unique feature allows the operator a choice of color (red or amber) depending upon operator preference and the lighting situation. Both scopes utilize the industry's leading third generation ITT Pinnacle™ Image Intensifier tubes, which provide superior performance in high-light or light-polluted areas while minimizing any "halo" effects. The MARS series of night vision riflescopes are CNC milled from a solid quality aluminum billet and fitted with titanium inserts. This one-piece construction makes the MARS series compact, lightweight, and extremely rugged. Utilizing top quality multi-coated, all-glass optics with a Mil-Dot reticle, the scopes provide powerful 4X and 6X magnification, respectively. For more information, contact American Technologies Network Corporation, Dept. S.W.A.T., 20 S. Linden Ave. Suite 1B, S. San Francisco, CA 94080, (800) 910-2862, [www.atncorp.com](http://www.atncorp.com).
