5.11 Tactical PUSH Pack

New to the marketplace is 5.11's PUSH (Practical Utility Shoulder Hold-all) Pack. Perfect for on- or off-duty use in urban or outdoor environments, the functional, multipurpose PUSH Pack replaces outdated fanny packs and is more compact than a backpack. It's made of tough 1050D water-resistant nylon and is designed for shoulder carry close to the body. The PUSH Pack has five pockets, an 8.5" x 8.5" x 4" main compartment and heavy-duty YKK zippers. For more information, visit www.511tactical.com.

ATN MARS Night Vision Weapon Sights

American Technologies Network Corp. (ATN) introduces the ATN MARS series of night vision weapon sights. The MARS 4X-3P and the MARS 6X-3P, both feature a new ATN proprietary feature: a two-color manual brightness of the aiming reticle. This unique feature allows the operator a choice of color (red or amber) of the projected reticle, depending upon operator preference and the lighting situation. Both the MARS 4X-3P and the MARS 6X-3P utilize the industry's leading third generation ITT Pinnacle™ Image Intensifier tubes. For more information, visit www.atncorp.com.

Lancer Systems L5 Translucent AR-15 / M-16 Magazines

The next evolution in magazine technology for the AR-15 / M-16 weapons platform is the L5 from Lancer Systems. Designed to expedite pre- and post-operation inspection, provide additional safety in the field and on the range, and enhanced operational reliability, the translucent body of the L5 provides instantaneous round counts, as well as a visual inspection for foreign objects or equipment malfunctions. Incorporating advanced polymer construction, hardened steel feed lips molded into the magazine, and a rubber-coated bottom, the L5 fits into existing weapons and pouches. For more information, visit www.lancer-systems.com.
