## All New XD(M)<sup>™</sup>

Springfield Armory has introduced the all new XD(M) which features the Ultra Safety Assurance (USA) Trigger System<sup>™</sup>. This guards against accidental discharge by locking the trigger in place until direct, rearward pressure is applied and the grip safety allows the weapon to be fired only when the shooter has a firm grip on the pistol.

Personalization of the XD(M) can be done with three interchangeable back straps for a more custom fit. This pistol is available in both .40 caliber and 9mm; respectively accommodating 16+1 and 19+1 rounds, is equipped with two stainless steel magazines, and weighs 32 ounces.

## Gen3 Night Vision Riflescopes

American Technologies Network (ATN) Corp. has introduced the ATN MARS series of night vision weapon sights, the MARS 4X-3P and the MARS 6X-3P, which utilize a new ATN proprietary feature – a two color manual brightness of the aiming reticle. This unique feature allows the operator a choice of color (red or amber) for the projected reticle depending upon the operator's preference and the lighting situation. Both the MARS 4X-3P and the MARS 6X-3P use the industry's leading 3rd generation ITT Pinnacle<sup>™</sup> Image Intensifier tubes.

## New Cargo Pants Holster

The X26<sup>®</sup> Nemesis Cargo Holster – Style ATT6100, a new ambidextrous holster from DeSantis Holster & Leather Goods Co., was designed to fit in the thigh pocket of most cargo pants. It can be carried either strong side or as a cross draw and is built from a very viscous material. The ATT6100 is quite sticky

and will absolutely not move out of position in the pocket. Reinforced and stiffened at all areas which need it, the Nemesis will also free up some much needed space on the tactical or duty belt. The inside is made of slick pack cloth for a no friction draw.

## New .223 Frangible Round

Fiocchi Ammunition has announced a new .223 Remington 45-grain frangible cartridge. Part of a new frangible, nontoxic line of quality cartridge products, this innovative round is ideal for the training market and, in particular, for indoor shooting ranges, close quarter steel plate shooting, and for use by police departments in tactical training scenarios.

The new Fiocchi .223 Remington cartridge, while part of the competitively priced Rifle Shooting Dynamics line, does not skimp on the quality of its components. The cartridge features well-known and respected SinterFire<sup>™</sup> frangible, lead-free bullets.
