Patriot3 Hydraulic Liberator

The Patriot3 Hydraulic Liberator is the most innovative and versatile armored vehicle-mounted tactical ramp system available. Patriot3 systems are currently utilized by the most elite military and police units around the world and offer teams a new dynamic for a multitude of critical situations. The Liberator directly increases a team's operational success by greatly enhancing speed, surprise and domination to nearly

every tactical situation all with armored protection. For more information, go to www.patriot3.com. Visit us at SHOT Show Booth #9947. **See our ad, page 13**

ATS MT Series Mobile Tactical Training Systems

The MT Series Mobile Tactical Training Systems from Advanced Training Systems are high-performance robotic platforms. Multi-mission platform mounts provide the versatility to carry targets, remote cameras, portable lighting, or trigger devices. The options are only limited by one's imagination. Add the optional electronic hit reactive target functionality for enhanced training. For more information, go to www.atsusa.biz. Visit us at SHOT Show Booth #9391. **See our ad, page 91**

Zistos Corp. VRAD

Zistos Corp. announces the new VRAD Video Radiological Adapter (pat. pend.). The VRAD generates an early warning by enunciating radiological alarm events on the surveillance video screen. This can alarm against an act of terrorism or industrial sabotage, using a dirty bomb or radiological materials as a contaminant. The system cost effectively adds radiological detection into fixed or mobile surveillance camera systems. It accomplishes this new capability using existing video cameras, cables and monitors. For more information, go to www.zistos.com. Visit us at SHOT Show Booth #12905. **See our ad, page 38**

Diamondback UTOC Domestic Agent Kit

Diamondback Tactical has introduced its latest offering in tactical / concealable vest kits, the UTOC Domestic Agent Kit. The kit includes the all-new UTOC tactical outer carrier, Level IIIA QVA ballistic panels, front and back trauma pads, six-point adjustable concealable carrier and rugged carry bag. It features Level IIIA ballistic inserts in the shoulder straps as well as a unique comfort mesh on the interior for improved air circulation. For more information, go to www.diamondbacktactical.com. Visit us at SHOT Show Booth #23154. **See our ad, page 63**

ATN OTIS-14 Thermal Imaging Device

American Technologies Network Corp. (ATN) introduces the latest in thermal imaging technology with the OTIS-14 Thermal Imaging device. OTIS stands for optical thermal imaging system. The ATN OTIS-14 is a multi-mission capable monocular designed for optimum use by military operators, law enforcement personnel, private contractors and security-conscious civilians desiring to convert the darkness into a tactical advantage. The ATN OTIS-14 offers maximum versatility being capable of handheld, head / helmet mounted, or weapon mounted. For more information, go to www.atncorp.com. Visit us at SHOT Show Booth #8242. **See our ad, page 72**

Eye Safety Systems Inc. ESS Cortex Clip

ESS (Eye Safety Systems) Inc. introduces the new ESS Cortex™ Clip for airsoft. This lightweight frame quickly attaches to ESS Profile NVG™ and Profile Turbo Fan™ goggles to provide the additional eye protection essential for airsoft training. For more information, go to www.esseyepro.com. Visit us at SHOT Show Booth #23140. **See our ad, page 11**
