ATN Thermal Imaging

American Technologies Network Corp. (ATN) introduces the latest in thermal imaging technology with the Optical Thermal Imaging System (OTIS-14) device. The ATN OTIS-14 is a multi-mission-capable monocular designed for optimum use by military operators, law enforcement personnel, private contractors, and security-conscious civilians desiring to convert the darkness into a tactical advantage. It offers maximum versatility being capable of handheld, head/helmet mounted, as well as weapon-mounted. The OTIS-14 features simple user friendly operating controls, quick-detach rail system for attaching accessories or mounting to a weapon, hands-free adaptability, compatible with 3x Afocal lens for increased magnification, light weight yet rugged design, and the latest digital thermal technology. MSRP is \$10,995. www.atncorp.com

Weaver Cross-locks

Weaver has a new offering for the tactical world. The new Weaver Tactical Rings and Bases are constructed from lightweight aircraft grade aluminum. The rings, available in 1-inch high matte, 1-inch extra-high matte, and 30mm matte, and featuring the time-tested Weaver cross-lock design, use six points of contact for locking optics down and providing reliable service in the most challenging environments. As a match to the Tactical Rings, Weaver's new Tactical Bases are one-piece rifle bases. Accommodating all red dots, lasers and optical devices, these new bases are made from lightweight aluminum and accept Weaver cross-lock rings. www.weaver-mounts.com CIRCLE NO. 205 ON READER SERVICE CARD

LWRC 6.8SPC DMR

Tactical insiders are well aware of LWRC (Land Warfare Resources Corp.) and their products for military, LE and commercial markets. The M6A2 Dedicated Marksman Rifle (DMR) is a precision variant M6A2 with a match grade barrel and multi-adjustable stock. It comes complete with a PRS or UBR stock, depending on your requirement.

The stock is upgraded with the Magpul MIAD grip, Enhanced Trigger Guard, and Rock River Match 2 stage trigger group. The DMR only comes in 16" to 18" barrel lengths but in two calibers, 5.56 (1/7 twist; 3000fps) and 6.8 SPC (1/10 twist; 2650 fps). www.lwrifles.com
