SIG SAUER SIG 556 Classic

SIG SAUER®, manufacturer of firearms for the military, law enforcement, and commercial markets, introduces the SIG 556 Classic semi-automatic rifle in 5.56 NATO. The SIG 556 Classic features a full-length gas piston with a two-position gas valve, Swiss-type folding stock and a polymer forend. The Classic's silhouette harkens back to the original military-only 550 model. The SIG 556 Classic's steel receiver features a Picatinny rail with a SIG SAUER Mini Red Dot Sight and an improved combat-style hooded front and flip-up rear sights. For more information, visit www.sigsauer.com. Visit us at SHOT Show **Booth #2045**.

Eye Safety Systems Inc. ESS Cortex Clip

ESS (Eye Safety Systems) Inc. introduces the new **ESS Cortex™ Clip** for airsoft. This lightweight frame quickly attaches to ESS Profile NVG™ and Profile Turbo Fan™ goggles to provide the additional eye protection essential for airsoft training. For more information, go to www.esseyepro.com. Visit us at SHOT Show **Booth #23140**.

Original SWAT Classic Side Zip

The Classic series from **Original SWAT** has always been its most successful footwear collection. The series consists of 9-inch boot models without a side zip in black, tan, coyote brown, and Air Force sage, as well as a side-zip version offered only in black. Answering numerous requests, Original SWAT is introducing the same **Classic Side Zip** boot in a tan suede model. The lightweight (39 ounce / pair) boot is built upon the same foundations as the Classics product line, with a convenient **YYK®** side zipper. For more information, visit www.originalswat.com. Visit us at SHOT Show **Booth #9739**.

Streamlight Lights

Streamlight® Inc. introduces enhanced versions of its leading tactical gun-mount **TLR-1®** and **TLR-2®** lights, offering law enforcement officers and tactical personnel extraordinary brightness in low-light situations with new power **C4™** LED technology. The TLR-2 also comes equipped with an integrated laser sight. The TLR-1 and TLR-2 lights nearly double the brightness of the earlier models with the next advance in LED technology. For more information, visit www.streamlight.com. Visit us at SHOT Show **Booth #7843 and 2815**.

ATN OTIS-14

American Technologies Network Corp. (ATN) introduces the latest in thermal imaging technology with the **OTIS-14 Thermal Imaging device**. The ATN OTIS-14 is a multi-mission capable monocular designed for optimum use by law enforcement personnel and others. The ATN OTIS-14 offers maximum versatility being capable of handheld, head / helmet mounted, or weapon mounted. For more information, go to www.atncorp.com. Visit us at SHOT Show **Booth #8242**.
