Focus On Technology

SWAT/Tactical Equipment

New Multipurpose Night Vision System

The **NVM14-3** mini-monocular, from ATN Corp., utilizes a single 3rd generation intensifier tube which provides clear images in the darkest of conditions. The

NVM14-3 can be handheld, head mounted, helmet mounted or weapon mounted, and is compatible with most IR laser aiming/illuminating devices or can be used with a camera. A feature which automatically turns the device off and on when the unit is raised or lowered from the viewing position dramatically extends battery life and improves the efficiency of the operator. Optional 3x and 5x lenses are available.

New Helmet Camera System

Tactical Electronics has introduced the **HCT3** camera system, designed to monitor, record, and catalog a tactical environment with extreme efficiency and reliability. The **HCT3** camera views and records (directly to an SD card) precisely what the user witnesses while simultaneously transmitting the video. The Sony™ Ex-View CCD features a 3.6mm precision microlens and 600 lines of resolution with 0.0003 lux low light performance. Four IR LEDs housed below the camera offer two levels of IR intensity, allowing for enhanced viewing in minimal light surroundings.

FNH USA Enhances Modularity of SLP Shotgun Line

FNH USA has enhanced the modularity and flexibility of its SLP line by offering an assortment of **shotgun choke tubes** and **accessory sporting barrels**.

The **accessory barrels** are of steel construction with a matte black finish for use with the FN SLP and the FN SLP Mark 1 shotguns and are available in 22", 24", 26", 28", and 30".

The **Briley Standard Invector** and **Invector-Plus** extended design **choke tubes** are polished stainless steel with blue anodized accent identification rings and are offered in sizes from cylinder to extra full.

Also available for the FN SLP and FN SLP Mark 1 is an **aluminum tri-rail extension** in matte black finish which offers three mounting rails which can be used for tactical lights and lasers.
